**Bartel Puelinckx**, Chief Finance Officer comments on financial results:

*"Strong business results translate also into financial results. We managed to partly mitigate the impact of low interest rate environment by loan and deposit growth, increased demand for mutual funds and financial market products. We have contained our operating costs and thanks to high quality of our credit portfolio, credit costs remained low. We strengthened our capital base and we have ample liquidity. Adjusted for the sale of our stake in ČSOB Pojišťovna in 4Q 2012, our net profit declined by 3% Y/Y."*

The **credit cost ratio** decreased to 25bps from 31bps. The decrease is to large extent attributable to the recovery of historical file in 3Q 2013.

Strong business volumes, higher demand in asset management and financial markets area coupled with lower impairments and operating expenses did not fully compensate negative effect of continued low level interest rate environment and impact of the sale of stake in ČSOB Pojišťovna in 4Q 2012. As a result **ČSOB group's net profit** decreased by 11% Y/Y to **CZK 13.7bn**. Adjusted for the sale of stake in ČSOB Pojišťovna, net profit declined by 3% Y/Y.

### **P&L Review**

The **operating income** decreased by 6% Y/Y to CZK 33.0bn, impacted by the sale of a stake in ČSOB Pojišťovna in 4Q 2012 and due to low interest rate environment which was only partly compensated by loan and deposit growth, increased demand for mutual funds and financial market products. Adjusted for the sale of stake in ČSOB Pojišťovna, the decline was 2% Y/Y. The **net interest income** declined by 4% Y/Y due to lower interest rate environment. The **net fee and commission income** grew by 9% Y/Y. The increase stemmed mainly from higher demand for mutual funds and higher sales in the financial markets area, partly offset by higher commissions paid to distribution. The result was also affected by low comparison basis in 2012, when ČSOB wrote-off deferred acquisition costs in pension fund.

**Operating expenses** decreased to CZK 15.5bn. The decline was achieved thanks to savings in general administrative expenses and lower staff expenses. **Staff expenses** decreased by 3% Y/Y thanks to decline in average number of employees and severance reserve booked in 4Q 2012. Number of FTE decreased Y/Y by nearly 250. The 4% decrease of **general**

### **Balance Sheet Review**

**Loan portfolio** further grew to CZK 508.5bn at the end of 2013, especially thanks to mortgages and corporate/SME loans.

**Mortgages** increased by 9% Y/Y to CZK 199.3bn thanks to stable real estate prices, interest rates at record lows and partly thanks to refinancing building savings loans. ČSOB provided CZK 42bn (+15% Y/Y) of new mortgages in 2013, thus reaching record high level. Portfolio of **building savings loans** decreased by 4% Y/Y to CZK 67.2bn as clients in general preferred mortgages to building savings loans in a low interest rate environment. Although outstanding volumes decreased Y/Y, ČMSS strengthened its market share. Volumes of **SME loans** (which include also municipalities and housing cooperatives) increased by 4% Y/Y to CZK 73.7bn, driven by mid-size and micro companies without deteriorating the risk profile. New sales increased by 11% Y/Y, driven by machinery and equipment asset financing. Besides, cross selling activities supported leasing sales. The **corporate loans** grew by 14% Y/Y to CZK 121.5bn driven by plain vanilla financing as well as specialized finance, mainly acquisition, export and trade finance deals.

**Group deposits** grew to CZK 660.3bn, mainly due to sound growth in both current accounts and savings deposits. The growth was visible in both retail and corporate/SME area. Within the total **client deposits**, both saving deposits and current accounts reported 5% Y/Y growth to CZK 295.4bn and CZK 216.3bn, respectively. On the other hand, term deposits declined by 22% Y/Y, but from very low basis compared to the other two categories. The volumes of **building savings deposits** remained relatively stable Y/Y at CZK 83.3bn. The 12% Y/Y increase of the **pension fund** to CZK 32.5bn was driven mainly by the growth of assets in transformed fund. The growth was stemming from stable portfolio of clients and the fact, that two-thirds of clients increased their monthly contribution.

The ČSOB group is keeping its number 1 position in the funds market. Asset under management (AUM) increased by 12% Y/Y to CZK 119.7bn, adjusted for takeover of Slovak AM, AUM increased by 5% Y/Y. Assets grew thanks to higher volumes of new sales exceeding

The **Tier 1 ratio** reached 15.8% as of 31 December 2013, compared to 13.0% as of 31 December 2012, thanks to profit retention and capital structure strengthening via KBC's capital increase in the amount of CZK 8bn in 3Q 2013.
