Deposits

Monthly fee on deposits over the limit during the year

Fee on deposits up to the limit	no fee
Fee on deposits in CZK for deposits over CZK 100 million	0.50% p.a.
Fee on deposits in EUR over EUR 3 million	0.50% p.a.
Fee on deposits in CHF over CHF 40,000	1.25% p.a.

Fee on deposits in SEK over SEK 400,000	1.00% p.a.
Fee on deposits in DKK over DKK 300,000	1.00% p.a.

The fee on deposits over the limit is calculated as the product of the aforementioned percentage for the relevant currency and the value of over-the-limit deposits on the relevant day. The over-the-limit value is equal to the difference between the balance of deposits in the relevant currency and the aforementioned limit on the relevant day. The daily balance of deposits consists of funds in current, savings, term and deposit accounts of the client in the relevant currency at the end of the relevant day. The daily balance does not include term deposits with an individual interest rate and deposit bills of exchange. Fees are calculated on a daily basis. ČSOB is entitled to charge this fee once during the subsequent month and to debit it from the fee account of the client in the currency of that account. If the fee account of the client is not defined, the fee is debited from the current account of the client which has the highest balance on the day of the charge. The current ČNB exchange rate is used for conversions between CZK and foreign currencies.

Annual fee on the increment of deposits at year end

Annual fee on the increment of deposits unless the total amount of deposited funds from all currencies exceeds CZK 100 million as of December 31st	no fee
Annual fee on the increment of deposits if the total amount of deposited funds from all currencies as of December 31 exceeds CZK 100 million and the average volume of funds in the course of the year ¹⁾	0.15%

Fee on the increment of deposits at year end is calculated as the product of the aforementioned percentage and the increment in deposits as of December 31st of the relevant year. ČSOB is entitled to charge the fee once a year, no later than on the second business day of March of the next year. The fee is debited from the fee account of the client in the currency of that account. If the fee account of the client is not defined, the fee is debited from the current account of the client which has the highest balance on the day of the charge. The current ČNB exchange rate is used for conversions between CZK and foreign currencies.

¹⁾ The average volume of funds during the year is calculated as the sum of positive balances of deposits on the last day of each month between January 1st and November 30th, divided by the relevant number of months. The calculation considers the sum of funds in current, savings, term and deposit accounts of the client in all currencies as of the last day of the relevant month. The daily balance does not include term deposits with an individual interest rate and deposit bills of exchange.
