Deposits

Monthly fee on deposits over the limit during the year

Fee on deposits up to the limit	no fee
Fee on deposits in EUR over EUR 1 million	1.00% p.a.
Fee on deposits in CHF over CHF 40,000	1.25% p.a.
Fee on deposits in JPY over JPY 5 million	0.50% p.a.
Fee on deposits in SEK over SEK 400,000	1.00% p.a.
Fee on deposits in DKK over DKK 300,000	1.00% p.a.
AUD deposit fee, over AUD 60,000	0.50% p.a.
PLN deposit fee, over PLN 200,000	0.30% p.a.

The fee corresponds to a percentage of the over-the-limit volume of deposits on the relevant day. The over-the-limit volume of deposits equals the positive difference between the daily balance of deposits in the relevant currency and the aforementioned limit. The daily balance of deposits consists of cash deposited on the client's current, savings, time and deposit accounts in the relevant currencies at the end of the relevant day, except for accounts with individualized interest rate time deposits and deposit bills of exchange.

Fees are calculated on a daily basis. ČSOB is entitled to charge this fee once a month, during the subsequent month, and debit it from the client's fee account in the currency of that account. If the client does not define a fee account, the fee is debited from the client's current account which has the highest balance on the day of the charge. The current ČNB exchange rate is used for conversions between CZK and foreign currencies.

Annual fee on the increment of deposits at year end

Annual fee on the increment of deposits unless the total amount of deposited funds from all currencies exceeds CZK 100 million as of December 31st	no fee
Annual fee on the increment of deposits if the total amount of deposited funds from all currencies as of December 31 exceeds CZK 100 million and the average volume of funds in the course of the year	0.20%

The fee is charged as a percentage of an increase in the deposit, i.e. the positive balance between the client's deposit as of 31 December and the average balance during the current calendar year. The average volume of the client's deposits during the year is calculated as the sum of the positive balances of deposits on the last day of each month between 1 January and 30 November of the relevant year, divided by the specified number of months. The calculation includes the total amount of cash deposited on the client's current, savings, time and deposit accounts in the relevant currencies at the end of the relevant month, except for accounts with individualized interest rate time deposits and deposit bills of exchange.

ČSOB is entitled to charge the fee once a year, no later than on the second business day of March of the next calendar year. The fee is debited from the client's fee account in the currency of that account. If the client does not define a fee account, the fee is debited from the current account which has the highest balance on the day of the charge. The current ČNB exchange rate is used for conversions between CZK and foreign currencies.
