Some of the terms used in the Conditions are clarified in the “CLARIFICATION OF CERTAIN TERMS” section.

I. OPENING AN ACCOUNT, ACCOUNT ADMINISTRATION AND ACCOUNT CANCELLATION

General conditions and terms

1. ČSOB opens and manages accounts and provides related services under separate contracts on accounts, payment means and other payment services, as well as under the relevant conditions and terms, which, along with the ČSOB Price List for Corporate and Institutional Clients (hereinafter the “Price List”) and other arrangements, form a framework contract within the meaning of the PTA. The legal relationship between ČSOB and the Client created under the framework contract shall be governed by the law of the Czech Republic (hereinafter referred to as the “**CR**”). No legal right exists to conclude a contractual relationship with ČSOB.
2. Where permitted by ČSOB, the separate arrangements comprising a framework agreement may also be entered into electronically, either with both parties attending, or using means of remote communication. Unless ČSOB allows other method and form of concluding a contract, the contract is concluded electronically with the Client signing a draft contract using a biometric signature and ČSOB affixing a scan of the biometric or other signature of its authorised representative. Unless agreed otherwise, the contract shall be deemed concluded once it is signed by all contracting parties, at which point it shall also take effect. ČSOB shall subsequently attach an electronic mark and a qualified time stamp to the contract and send it to the Client via the e-banking service, or by email.
3. Before the conclusion of a contract / provision of a service, ČSOB shall identify and check the Client, the persons representing the Client, the persons controlling the Client and the actual owner of the Client; in case that a legal person is a member of the Client’s statutory body, also the controlling persons and actual owner of this legal person, at least to the extent stipulated by law. In accordance with Act No. 253/2008 Coll., as amended, ČSOB is obliged to take a copy of the ID used for the initial physical identification of the Client. Should the Client fail to provide access to such information, ČSOB is entitled not to enter into a contractual relationship with the Client (not to execute an order or any transaction with the Client). If these persons refuse to be subject to identification and checks as required by ČSOB, no contract will be concluded or no service will be provided. As part of the check, ČSOB may at any time during the contractual relationship require that the identification data of the above-mentioned persons be added to or, that a proof of ID or further information be produced by the Client, in particular with a view to proving the origin of the funds deposited at, or directed to, their account, documents attesting to the creditworthiness and liabilities of the Client, or their credibility, and the Client is obliged to provide such Information to ČSOB. Similarly, ČSOB shall be entitled to request the immediate submission of documents/information necessary to assess whether a particular transaction or trade is in compliance with the KBC Group’s Embargo Policy available on the Website (ČSOB section, ČSOB Policies). ČSOB has the right to refuse to execute, or execute late, an order entered by the Client or any transaction that it reasonably believes does not comply with the law and ČSOB’s procedures thereunder, the Contract or the KBC Group’s Embargo Policy. If ČSOB exercises such a right, it shall not be held liable for any damage that may arise (e.g. as a result of a payment transaction not being executed or being executed late). ČSOB can make copies of all documents submitted by the Client in relation to the fulfilment of the obligations relating to the identification of the Client and check, for the purposes of Act No. 253/2008 Coll., as amended, and process the information obtained in order to meet the purpose of that Act.
4. Within the identification and the check, the Client shall submit to ČSOB in particular any documents proving its existence (or incorporation documents if the legal person was established but not yet created), the manner of acting for the legal person, who is the controlling person and actual owner of the Client and business licences; ČSOB may require that these documents are not older than 3 months. A citizen of the Czech Republic (a natural person) shall by default produce their identity card as proof of ID, a citizen of another state will usually produce a passport as proof of ID or other documents required by ČSOB. A natural person shall promptly communicate any theft or loss of their proof of ID to ČSOB.

5. ČSOB shall be entitled to verify the authority of the person acting on behalf of the Client and to refuse or delay the execution of any order, instruction or request until it considers it beyond doubt that the relevant person is in fact authorised to act for the Client in the given matter.
ČSOB is also entitled to refuse or delay the execution of any order, instruction or request if all necessary documents (e.g. consents, approvals, affidavits, etc.) necessary for the provision of the relevant service or action are not submitted to it or if such documents do not contain the required elements or do not sufficiently prove the relevant facts.
6. The Client is responsible for the timeliness, accuracy and completeness of all data communicated to ČSOB and is obliged to notify ČSOB without undue delay of any changes to such data and to document the data by providing a valid document that clearly proves the veracity of such data (e.g. a valid proof of identity of the person acting on behalf of the Client), except for any changes in their correspondence address or the address of their residence which the Client merely communicates to ČSOB. If the notification occurs at the ČSOB branch, the change of the identification details is effective as of the date of notification.
7. Where the framework contract is required to be published in the register of contracts under the relevant legal regulations, the Client shall arrange for its proper and timely publication at their own expense.
8. ČSOB opens and manages accounts for legal entities – for business-related purposes and non-business-related purposes.
9. The Account Holder is required to maintain their account balance in the amount sufficient to cover the fees charged for the services provided.
10. ČSOB does not open multiple-holder accounts.
11. Unless otherwise agreed in the account contract, the account name consists of the name / business name of the Account Holder.
12. Clients may use services that involve the indirect giving of payment orders, providing information on payment accounts and confirming the account balance in accordance with the Conditions and Terms and technical conditions.

Disposing of the account and of the account funds

General conditions and terms

13. Disposing of the account denotes any legal action leading to the establishment, amendment or expiry of the account contract, including the granting of the authority to dispose of the account funds or modifying the authority; furthermore, e.g., negotiations concerning the provision of information on the Account Holder's accounts, their balances or movements and balances of funds in these accounts.
14. The account funds can be disposed of using orders to execute payment transactions, which can also be executed using payment means (e.g., debit cards, Internet banking services) as well as using private checks issued using forms made available and approved by ČSOB to go with the account, which are governed by special conditions and terms.
15. ČSOB may refuse to accept a letter of authority to dispose of the account / execute a one-off action related to disposing of the account funds, which authorises the agent to confer the authority onto another person, or a letter of authority that is more than 3 months old.
16. Any person other than the Account Holder may only dispose of the account under a legal authorisation or a special letter of authority granted by the Account Holder, which explicitly defines the specific legal actions when disposing of the account. If the letter of authority is not made in accordance with this clause, ČSOB is entitled to refuse it.

Disposing parties

17. The Account Holder may authorise another person to dispose of the account funds (hereinafter referred to as an **"Authorised Account User"**). The authorisation may cover one or more of the following methods of disposing of the account funds:

- a) through payment orders in paper format, with a handwritten signature affixed
- b) through payment orders made using electronic payment means, etc.
 - payment card
 - e-banking services.

Each authorisation granted as stipulated above shall be considered individually; the Account Holder shall grant, revoke or change the Authorised Account User's authorisation with regard to a specific manner of disposing of the account funds. ČSOB may request that the authorisation be conferred using a specified form and may limit the number of Account Holders.

18. ČSOB shall provide a payment card to the Authorised Account User under a special contractual arrangement with the Account Holder. ČSOB shall set up an e-banking service to the Authorised Account User under a special contractual arrangement with the Account Holder and a related contractual arrangement with the Authorised Account User. In such a case, the rights and obligations of the Account Holder and the Authorised Account User are also governed by the special conditions and terms relating to such payment means.
19. The Account Holder may revoke an Authorised Account User's authorisation. The revocation takes immediate effect if it is served in person at a ČSOB branch, otherwise it takes effect on the second business day after being received by ČSOB.
20. A new authorisation or a change in an existing one is effective immediately unless it involves creating a new specimen signature for the Authorised Account User; in the latter case, the authorisation shall only take effect on the effective date of the new Specimen Signature.
21. An Authorised Account User authorised to dispose of the account funds through payment orders bearing their handwritten signature may also check the current account balance and the movements and changes in the account funds, including through account statements, and collect all correspondence addressed to the Account Holder, unless the latter is intended strictly for the Account Holder and the Authorised Account User is also authorised to use the Providing Information on the Payment Account service.
22. Under exceptional circumstances, the Account Holder may authorise a third party to execute a one-off transaction to dispose of the account funds. The transaction covered by the authorisation granted must be accurately defined in the letter of authority and ČSOB may require that the letter of authority be submitted to the branch, at which the transaction is to be executed up to 5 business days prior to the intended transaction date. If the letter of authority is not made in accordance with this clause, ČSOB is entitled to refuse it.

Specimen signature

23. The Client shall use their own signature (hereinafter referred to as the “**Specimen Signature**”) to authorise payment transactions to be executed against payment orders in paper format, bearing a handwritten signature. The Client may use up to two Specimen Signatures, provided in a dedicated form. In the event two Specimen Signatures are used, the signature provided in the “Specimen Signature 1” field is used for signing payment orders relating to accounts, of which the Client is the holder, and that provided in the “Specimen Signature 2” field is used for signing payment orders relating to accounts, in relation to which the Client is merely an Authorised Account User.
24. The Specimen Signature must always be connected with the name of the signatory and meet ČSOB's security requirements. The Specimen Signature must include the Client's name and surname (possibly, only the surname) and must not be in block capitals. ČSOB recommends that the Specimen Signature be different from that used in regular correspondence. ČSOB may refuse establishing a Specimen Signature if doing so contradicts the agreed conditions and terms or ČSOB's security requirements.
25. The Client may change/establish a Specimen Signature by creating a new Specimen Signature using the currently used form. A new Specimen Signature shall take effect:

Place of establishment	Method / time of establishment	Effect of the new Specimen Signature (once established)	
ČSOB branch	paper format	at a ČSOB branch office where it was established	on the same day
		in other cases	on the following business day by 16:00
	biometrically, from 16:00	on the same day	
	biometrically, after 16:00	on the following business day	
Czech Post branch office / before the courier	paper format	2nd business day at the latest, from 16:00 (if accepted by ČSOB and unless otherwise agreed)	

The valid Specimen Signature is always the one that appears in the dedicated form with the latest date of signature by the Client.

The Specimen Signatures that appear on the forms of the Poštovní spořitelna brand before 31 March 2015 and on the ČSOB forms before 8 November 2010 remain valid until the Account Holder changes the authorisation.

Disposing of the account funds without the Client's order

26. Without an order of the Account Holder / Authorised Account User, ČSOB may debit amounts to the account:

- a) when charging service fees as per the Price List
 - b) when executing a payment cancellation (if the payment transaction was not executed in accordance with the payment order)
 - c) when performing payments executed by ČSOB on behalf of the Client following the use of checks and payment cards, and to cover the due debit interest
 - d) when withholding taxes
 - e) in the course of enforcement, insolvency or other legal proceedings
 - f) in the event of a mutual settlement of receivables and payables (offsetting)
 - g) of the Account Holder, as a beneficiary, for the purpose of returning the amount of an authorised direct debit transaction to the account of the payer's provider upon the latter's request
 - h) if the condition has not been met for crediting a ČSOB account kept with a correspondent bank with an amount transferred from abroad, or a foreign currency amount transferred from within the Czech Republic
 - i) in other cases specified by the relevant legal regulations and/or agreed with the Account Holder.
27. ČSOB shall be obliged to block the account funds following a court decision or a decision of any other competent authority and to execute an enforcement or take any other legal steps in accordance with the applicable legal regulations. If the account balance is higher than the amount determined in the relevant decision, ČSOB may transfer funds corresponding to the amount specified in the relevant decision to a special account where they will be blocked; the transfer shall have no effect whatsoever on the interest the funds are liable to. ČSOB may also block the account funds if it is necessary to perform a corrective payment cancellation. In case of an execution via debiting the receivable from a holding account, the deposit or its part amounting to the due receivable shall be due on the delivery date of the notification of a legally enforceable execution decision to ČSOB.
28. ČSOB shall be entitled to block a Client's payment means by reason of the security of the payment means, especially if there is suspicion that the payment means is being used without authorisation or fraudulently or upon a significant increase in the risk of the Client not being able to repay a loan that can be drawn through the payment means. ČSOB shall inform the Client about blocking the Client's payment means.

Debit balance

29. The Account Holder may only use the funds up to the amount of the account balance (including any overdraft, where applicable). Wherever the available account balance is overdrawn (regardless of whether the overdraft occurs as a result of the unauthorised overdraw, i.e. the Client using an amount higher than the balance, or as a result of fees being charged for the services provided, or as a result of any other payments ČSOB is entitled to debit to the account without the Client's order), a debit balance will apply. The Account Holder is required to repay the debit balance immediately. Any payment requests relating to the debit balance shall be charged as stipulated in the Price List. ČSOB is entitled to request the payment of a debit interest from the debit balance in the amount according to the Notification of ČSOB for Corporate and Institutional Clients of Interest Terms and Conditions for Deposits in CZK / Notification of ČSOB for Corporate and Institutional Clients of Interest Terms and Conditions for FX Deposits (hereinafter the "Notification", from the date of its occurrence. The debit interest shall be payable immediately; at the end of the calendar month it shall be credited to the debit balance and ČSOB shall have the right to charge interest on the amount increased in this way in the following month.

Offset and assignment

30. Without ČSOB's prior written consent, the Account Holder may not assign or pledge their receivables from ČSOB resulting from the account contract, or transfer the rights resulting from the contract to another party or assign the contract as such.
31. ČSOB may offset its receivables from the Account Holder, mature or not, resulting from the management of the account or from other bank transactions. ČSOB may offset such receivables against the Account Holder's receivables, mature or not, from ČSOB, to which the Account Holder has become entitled in connection with the administration of any account or for any other reason. If ČSOB's offset-eligible receivables exceed the current balances at the Account Holder's accounts currently kept with ČSOB, ČSOB may block these accounts for the purpose of executing the offset (i.e., to render any cash withdrawals / outgoing payments and direct debit withdrawals/ from the accounts impossible) and use not only the current account balances, but also any funds to be credited to the account in the future to collect its receivables (offsetting).

Transparent account

32. Where it is agreed between ČSOB and the Account Holder that the account is to be kept transparent (hereinafter referred to as a "transparent account"), ČSOB publishes on its website the information on the account and on payment transactions concerning the account without undue delay after these transactions have been made. ČSOB may publish in particular the number of the account, the name of the transparent account, the accounting

balance in the transparent account, the date of the debiting or crediting of a payment transaction and the date of its charging to the transparent account, the denomination or name and surname, or possibly the name of the account of the contributor, the variable symbol, the amount and currency of the payment transaction, and a description of the payment transaction (especially its reason or purpose).

33. The Account Holder is required to inform the contributor of the fact that the information on payment transactions concerning the transparent account is published and that by publishing this information, some information about the contributor may also be made public. ČSOB recommends that the Account Holder notifies the contributor not to use their personal identification number as a variable symbol. During the keeping of the transparent account, ČSOB may, after three years from the publication of the relevant payment and other information associated with the transparent account, remove this published information from its website.
34. ČSOB ceases to publish the information on transactions as of the day of the termination of the transparency of the account or as of the day of the termination of the account contract. In the case of political subjects (e.g. political parties, movements, etc.) ČSOB leaves the already published information on its website for at least three years from the day of the termination of the transparency of the account or from the day of the termination of the account contract. After the expiry of this period, ČSOB may remove the corresponding published information from its website. In the case of other subjects, ČSOB may remove the published information as of the day of the termination of the transparency of the account or as of the day of the termination of the account contract.

Account cancellation

35. The obligations under the account contract shall cease to apply upon termination, mutual agreement of the contracting parties or withdrawal.

Termination

36. The Account Holder may terminate the account contract in writing without indicating the cause. The notice period is 1 month, starting on the day off the receipt of the notice by ČSOB. ČSOB may require the termination of the account to be signed in accordance with the relevant Specimen Signature if the account balance exceeds CZK 300,000 as of the date of termination.
37. ČSOB may terminate the account contract in writing without indicating the cause. The notice period is 2 months, starting on the 1st day of the calendar month following receipt of the notice by the Account Holder.

Withdrawal

38. ČSOB may withdraw from the account contract and cancel the account if:
- a) at least the minimum first deposit amount is not deposited into the account within 10 business days of the date on which the account is opened if a minimum deposit is required; or
 - b) the Client materially breaches the contract – the emergence of a debit balance shall always be regarded as a material breach of contract; or
 - c) the duration of the obligations arising from the contract or the use of the product or service becomes unacceptable or unlawful for ČSOB as a result of legislation or the internal rules or policies of ČSOB or the KBC Group.
39. The Account Holder may withdraw from the contract in the cases specified by law.

Consequences of terminating the account contract

40. The obligation under the account contract shall cease to apply on the effective day of the termination or withdrawal. The Account Holder is obliged to settle all its obligations arising from the contractual relationship no later than the date of termination of the contractual relationship. ČSOB shall dispose of any positive balance of the cancelled account, minus the amounts of any non-posted payment transactions, as per the Account Holder's instructions granted in writing (in particular via a dedicated form) or via electronic banking services, within 7 business days following the termination of the contractual relationship (Outgoing payment or Cash withdrawal). Cash withdrawals of the positive balance of the account will always be made in CZK, with the exchange rate to be used according to the ČSOB exchange rate list valid on the date the funds are debited from the account. If the Account Holder requests a withdrawal of the balance in connection with the cancellation of the account by means of a cheque, the withdrawal may be made only if the balance is sufficient to cover the cheque fee. ČSOB will cancel the account within 1 month after the end of the contractual relationship, following the settlement of the mutual rights and obligations. In the case of a payment account linked to a holding account with term deposits, ČSOB will close the account no sooner than on the nearest maturity date of the last term deposit on the holding account. In the event of an account on which an enforcement proceeding is being conducted or which the funds are secured under any other legal proceedings, the account will not be cancelled before the last proceeding is completed.

41. If the Account Holder does not grant ČSOB a disposition of the positive account balance no later than the date of the termination of the contractual relationship, ČSOB is entitled to exercise any of the following rights:
- exchange the balance of the foreign currency account into CZK at the exchange rate according to the ČSOB exchange rate list valid on the date of the cancellation of the account;
 - pay the balance to the Account Holder by cheque sent to the Account Holder's mailing address.
42. If a situation arises where the currency of the cancelled account is not specified in the ČSOB exchange rate list, ČSOB is entitled to use the CNB exchange rate valid on the relevant date for the exchange of the positive balance into CZK in accordance with clauses 39 and 40 instead of the exchange rate according to the ČSOB exchange rate list. In the event that the CNB exchange rate cannot be used, ČSOB is entitled to exchange at the current market rate.
43. The instruction to pay out the balance must contain the specified essentials for a payment order served in paper format (for details see the "PAYMENT SERVICES" section and go to the website). ČSOB does not apply any interest to the positive balance on a cancelled account, and unless the balance is paid out, ČSOB transfers it to its internal account and registers it until the lapse of the statute of limitation for the right to its payment. Where the account contract has been entered into for a definite period, ČSOB shall proceed similarly after the expiry of the agreed period.

II. INTEREST AND FEES

Interest

1. The account funds are subject to ČSOB interest rates in accordance with the interest-related rules applicable to the respective currency. Specific ČSOB interest rates are specified with regard to individual currencies, periods and products. The current interest rates are provided in the relevant Notification available on the website and on the premises of ČSOB branches. The interest rates are derived from reference interest rates, i.e. the interest rates promulgated by the CNB, and they are also subject to the price of money in the market, ČSOB's financing costs and its commercial policy. ČSOB may unilaterally and without prior notice amend the parties' agreement regarding the magnitude of the interest rates applied. The new interest rates will apply to all the Client's accounts from the date of promulgation of the relevant Notification. Any changes in the interest rates shall be communicated to the Client without undue delay, except for changes that are favourable for the Client, which do not have to be communicated.
2. ČSOB may also unilaterally change the interest rates towards negative figures. Such a change shall be communicated to the Client 1 months prior to the effective date thereof, typically using an account statement, Internet banking or by e-mail, as well as through the publication thereof on the website.
3. Interest shall start to be applied to the funds once the funds are credited to the account and cease to be applied on the day preceding the funds being debited to the account. The interest on the account balance is calculated on a daily basis and credited at the end of each calendar month, in the currency of the account. The interest is credited to the account balance, unless agreed otherwise.

Fees

4. ČSOB may charge and collect fees for the services provided as specified by the Price List in force on the date of charging the fee.
5. The fees are payable on the day of being cleared. The fees are charged on the last day of a calendar month, or on the date of provision of a paid service. If a fee is charged with currency conversion, the applicable exchange rate is always the current Czech National Bank's exchange rate valid for the day on which the fee is cleared. Unless otherwise agreed, the fees are always debited to the account in favour of which the service has been provided.
6. Any fee for a service provided during execution or other legal proceedings is only debited to the account after the lapse of the effects of all the decisions on the grounds of which ČSOB was required to block the funds in the account.
7. For an Outgoing Payment issued through the indirect payment order (via Indirect Payment Order), the fee is charged according to the Outgoing Payment item specified for the given type of transaction via the e-banking service for the given type of transaction.

III. PAYMENT SERVICES

General conditions and terms

1. Payment services denote the execution of payment transactions, i.e. depositing cash on, and withdrawing cash and wire transfers of funds from one account to another. ČSOB executes such payment transactions against payment orders in accordance with the framework contract and the relevant legal regulations.
2. ČSOB will refuse to execute a payment order if the obligation to deny such an order results from a legal regulation. ČSOB is entitled to reject to execute a payment order which does not comply with the conditions specified in the general agreement, which is sent via data box, or if there are reasonable doubts whether the payment order was issued by an authorised person (for example if the given payment instrument was misused). ČSOB is not liable for damages suffered by the Client due to not executing the given payment order as specified above. Except for where doing so would contravene the law, ČSOB will inform the Client of the non-execution of the payment order, usually in Internet Banking, by post or by phone.
3. Payment transactions executed against payment orders placed using a payment card or via the e-banking service are also subject to the conditions and terms governing such means of payment.
4. Documentary transactions (such as letters of credit and guarantees), bills of exchange and checks are subject to special conditions. For SEPA direct payments, these Conditions apply only in the extent not governed by special conditions.
5. Unless otherwise agreed, a payment order may only be submitted in paper format, using the form provided by ČSOB.
6. If the nature of the payment order permits, the Client is required to review the explanatory notes to the payment order prior to placing it (if such explanatory notes are available for the respective type of payment order), which are provided in the form or on the website. When placing a payment order, the Client is obliged to follow the instructions provided in the form concerned (including the explanatory notes), in Internet banking or on the website, and fill in all the information marked as required. The binding instructions may also contain samples of filled-out forms available on the website. A payment order in paper form must be legible and must not include any cross-outs, deletes or overwrites. Everything stated above also applies adequately with consent to direct debit payments.
7. If ČSOB keeps an account for the Client that is accessible through Internet banking, ČSOB may, with the Client's consent, transmit information about such account, balance thereon and payment transactions made to the provider of the information about the account. If such consent is provided by a Client who is the Authorised Account User with respect to accounts of another Owner, the information thus shared will also apply to the accounts in question.

Authorisation of payment transactions

8. ČSOB executes authorised payment transactions only. A payment transaction is authorised if the Client gives their consent to it in an agreed manner. By granting their consent, the Client at once confirms they have reviewed information relating to the transaction before authorising it.
9. The Client authorises the payment transaction:
 - a) for payment orders in paper form, by attaching a handwritten signature corresponding to their latest Specimen Signature, and/or using any other authorisation mechanism, contractually agreed or specified by ČSOB. ČSOB shall confirm the receipt of a payment order in paper format by an employee of the bank with an imprint of a stamp on a copy of the payment order or the detachable part of the relevant document.
 - b) for a payment order entered via the e-banking service, using the authorisation elements specified in the relevant contractual provisions.
 - c) for a payment order placed via a payment card, or other means of payment, in accordance with the relevant contractual provisions.

Execution of a payment transaction

10. ČSOB executes payment transactions on business days in the manner and within the time limits stipulated in "TIME LIMITS FOR THE EXECUTION OF PAYMENTS". ČSOB shall debit the funds to the Client's account once the payment order is accepted, provided all conditions agreed for the execution thereof have been met and the Client does not require a later maturity date. The time of receipt of a payment order shall be determined on the basis of the time and the method of its transmission to ČSOB - for detailed conditions see the section on "TIME LIMITS FOR THE EXECUTION OF PAYMENTS". If a payment order is received outside ČSOB's business hours or after the agreed time (the so-called cut-off time), the payment order shall be deemed accepted at the start of ČSOB's business hours on the very next business day.

11. Unless stipulated otherwise for specific types of payment transactions in the Conditions and Terms, ČSOB undertakes to not execute a payment order unless sufficient funds are available on the account of the Client, as a payer, on the required due date.

If insufficient funds are on the payer's account as of the due date of a payment order to make an outgoing payment, direct debit payment or standing order (including one set up indirectly), so that the order cannot be executed, ČSOB keeps the payment order and payment generated based on a standing order in its records:

- for domestic payment system, until the end of the 2nd business day after the due date (so 2 calendar days in the case of transfers in CZK onto an account at ČSOB). A transfer order given indirectly shall be excluded from processing on the due date.
- for foreign payment system, until the beginning of the 3rd business day after the due date (immediately after the opening of the banking system). A transfer order given indirectly shall be excluded from processing on the day following the due date (immediately after the banking system has been opened).

If the account available balance increases during the above time limit so that it is possible to execute the recorded payment order, ČSOB shall execute it. In that case, funds will be debited from the account on the following business day after the required increase of the account balance at the latest.

12. If the payment order indicates a due date that does not fall on a business day, ČSOB shall execute the payment order on the nearest business day. This does not apply for the below stated payment orders for transfers in CZK, if the account of the payer and the account of the beneficiary is at ČSOB.

- an order for an outgoing payment assigned via Internet banking / a payment card
- a standing order a standing order for a direct debit payment.

13. ČSOB shall not execute a payment order with a due date that occurs more 365 days from the date of its transmission.

14. In foreign payments, ČSOB shall not execute a standing order for the transfer of a variable amount if the payer's account, on the due date, shows a balance lower than the minimum balance of funds determined by the payer and indicated in the order. In such a case, the payment order shall immediately be excluded from processing and shall not be executed.

Withdrawing a payment order

15. The Client may only withdraw a payment order in the cases, using the method and within the time limits agreed in the section on "TIME LIMITS FOR THE EXECUTION OF PAYMENTS". A payment order given indirectly cannot be withdrawn.

Liability for an incorrectly executed / unauthorised payment transaction

16. A payment transaction shall be deemed to have been duly executed if it has been executed in accordance with the payment order.

17. The Account Holder / Authorised Account User shall notify ČSOB in writing of any unauthorised or incorrectly executed payment transaction without undue delay after becoming aware thereof, usually by phone via the Client Centre, at any ČSOB or Česká pošta, s.p. branch and in other forms specified in the ČSOB Complaint Rules (unless the relevant conditions applicable to the specific payment means, using which the payment has been made, specify a different form of the notification), and in any event at the latest within 13 months of the date on which the funds were debited to the payer's account. If they fail to do so and ČSOB objects to this fact, the Account Holder's rights resulting from the unauthorised or incorrectly executed payment transactions may not be acknowledged.

18. ČSOB shall be liable to the Account Holder, as a payer, for an incorrectly executed payment transaction, expect where ČSOB shows to the Client or the beneficiary's provider, that the amount of the incorrectly executed payment transaction has been duly credited to the beneficiary's provider's account in a timely fashion. If that is the case, the liability to the beneficiary for the incorrectly executed payment transaction shall rest with the beneficiary's provider.

19. Where ČSOB is liable to the Account Holder, as a payer, for an incorrectly executed payment transaction and he / she informs ČSOB that they do not insist on the execution of the transaction, ČSOB shall immediately restore the balance at the account, to which the amount of the payment transaction was debited, as if the incorrect execution of the payment transaction did not occur at all. If that is impossible, ČSOB shall return to the Account Holder the amount of the incorrectly executed payment transaction, any fee paid, and the lost interest in a different way. This procedure shall not apply if the Account Holder only informs ČSOB that they do not insist on the execution of the payment transaction after the amount of the payment transaction has been credited to the beneficiary's account.

20. Where ČSOB is liable to the Account Holder, as a payer, for an incorrectly executed payment transaction and he / she does not inform ČSOB that they do not insist on the execution thereof, ČSOB shall immediately make sure

that the amount of the incorrectly executed payment transaction is credited to the account of the beneficiary's provider and restore the balance at the Client's account as if the incorrect payment transaction did not occur at all. If that is impossible, ČSOB shall return to the Account Holder the amount of the incorrectly executed payment transaction, any fee paid, and the lost interest in a different way.

21. Where ČSOB is liable to the Account Holder, as a payer, for an incorrectly executed payment transaction, ČSOB shall immediately restore the balance at the Client's account, as if the incorrect payment transaction has not been executed at all. If that is impossible, ČSOB shall return to the Account Holder the amount of the incorrectly executed payment transaction, any fee paid, and the lost interest in a different way.
22. If an unauthorised transaction is made, ČSOB shall, as soon as it learns of such a transaction but no later than the end of the business day following the day on which the Account Holder / Authorised Account User reports such a transaction, restore the balance of the account from which the transaction is debited as if the transaction has never happened. If that is impossible, ČSOB shall return to the payer the amount of the payment transaction, any fee paid, and the lost interest in a different way. The aforementioned time, however, shall not begin to run if ČSOB has reason to believe that the Account Holder / Authorised Account User has acted fraudulently and reports this fact to the Czech National Bank. ČSOB shall not be obliged to return the amount of an unauthorised payment transaction pursuant to the first sentence if the loss therefrom is borne by the Account Holder.
23. The Account Holder shall bear the loss from an unauthorised payment transaction:
- up to the amount of €50 if it was due to the use of a lost/stolen payment means or due to its misuse, except where the Account Holder / Authorised Account User has not acted fraudulently and
 - they could not have ascertained the loss/theft/misuse of the payment means before the unauthorised transaction was made, or
 - the loss/theft/misuse of the payment means was due to the conduct of ČSOB;
 - in full if it occurred as a result of the Account Holder's / Authorised Account User's fraudulent conduct or owing to the fact that the Account Holder / Authorised Account User breached their obligation, intentionally or due to gross negligence, to use the payment means in accordance with the contract, to protect it (its security features) against loss/theft/misuse and to report the loss/theft/misuse, if applicable, of the payment means to ČSOB without undue delay, except where the Account Holder / Authorised Account User has not acted fraudulently and:
 - the loss was incurred after the Account Holder / Authorised Account User had reported the loss/theft/misuse of the payment means to ČSOB, or
 - ČSOB failed to secure suitable means for reporting it, or
 - ČSOB breached its obligation to demand strong verification of the Account Holder / Authorised Account User.
24. ČSOB shall use the Czech National Bank exchange rate valid as at the relevant date to convert the loss arising from an unauthorised payment transaction that is borne by the Account Holder.
25. If ČSOB refunds the amount of an (allegedly) unauthorised payment transaction to the Account Holder and finds out afterwards that the Account Holder was not entitled to the refund thereof as:
- it was not an unauthorised payment transaction, or
 - the loss from the unauthorised transaction is borne, in whole or in part, by the Account Holder.
- ČSOB may deduct the amount, to the extent to which the Account Holder was not entitled to the refund thereof, from any account of the Account Holder held with ČSOB without the Account Holder's consent.

Exchange operations

26. ČSOB exchanges one currency into another using ČSOB exchange rates valid on the day of the exchange. If the value to be exchanged in CZK exceeds CZK 1,5 million (or the equivalent value in the foreign currency), ČSOB shall use an exchange rate derived from the current exchange rate in the interbank foreign exchange market. In the event of major exchange rate fluctuations in the interbank foreign exchange market, ČSOB may adjust ČSOB exchange rates within a single business day. In the Price List, ČSOB may set a limit on the number of exchange transactions to be executed between multiple accounts of one and the same Client; if the Client exceeds the limit, ČSOB may block the Client's payment means, using which the Client has placed orders to execute the exchange operations.
27. Information on the exchange rates (list of exchange rates) is posted within the premises of all ČSOB branches and on the website. For an order for an outgoing payment or a standing order involving a currency exchange between the accounts of one and the same Client kept with ČSOB through Internet banking the exchange rate is communicated to the Client using Internet banking.
28. To convert the transferred amount from the currency of the Client's account, where the Client is a payer, to the transfer currency, ČSOB will typically use the *currency - sale* exchange rate of the currency being transferred according to ČSOB's exchange rate list in force at the time of the transfer (from ČSOB's perspective, this transaction will amount to selling the transfer currency to the Client). If neither the transfer currency, nor the

currency of the Client's account is CZK, the exchange rate is determined as the ratio of the *currency - purchase* exchange rate of the account currency and the *currency - sale* exchange rate of the transfer currency.

To convert the transferred amount from the transfer currency to that of the Client's account, where the Client is a beneficiary, ČSOB will typically use the *currency - purchase* exchange rate of the transfer currency according to ČSOB's exchange rate list in force at the time of the transfer (from ČSOB's perspective, this transaction will amount to purchasing the transfer currency from the Client). If neither the transfer currency, nor the currency of the Client's account is CZK, the exchange rate is determined as the ratio of the *currency - purchase* exchange rate of the transfer currency and the *currency - sale* exchange rate of the account currency.

29. If the amount of the transfer exceeds EUR 5000 (or the equivalent in the other currency), the Client, as a payer, and ČSOB may agree on a personalised exchange rate (for a transfer order placed in electronic banking, by telephone, via the Electronic Banking services or otherwise through the Client Centre, or alternatively via a ČSOB branch, or in paper format in the "further instructions" box). ČSOB may exceptionally allow the Client to negotiate a personalised exchange rate even in the case of a lower transfer amount. If personalised exchange rate is approved, ČSOB will affect the exchange at this rate; otherwise, it shall affect the exchange in accordance with the general rules; ČSOB will include information on the exchange rate in the account statement.

45. The direct debit is affected against a consent granted by the Account Holder, as a payer (consent to direct debit). In certain cases, the Account Holder may directly grant the consent to direct debit to a third party – beneficiary, who has an account with ČSOB, if so agreed with the beneficiary and ČSOB. A consent to direct debit granted as described above may only be amended or withdrawn by the beneficiary. The phone conversation between ČSOB and the Client will be recorded. If, following such notification by ČSOB, the Client adds to, corrects or clarifies the data over the phone or by e-mail (as requested by ČSOB), the very act will be regarded as an expression of the Client's will and it will replace their original expression of will made in the respective payment order with regard to the information additionally provided by the Client.
