

We buy companies
that you know

Invest into the whole world. Take part in the success of the most famous companies.

Why to invest here?

- Thanks to regional and sector diversity, the fund is suitable as your portfolio's **base stock component**.
- An excellent option for **regular investment**.
- ČSOB Akciový is among the **most popular and largest Czech crown stock funds** that we offer.

Tip:
Invest regularly
from CZK 500
per month.

What do you invest in?

- We choose successful companies with interesting investment stories into the fund.
- **Visa**
Consumers worldwide love non-cash payments and Visa manages approximately half of all payments in the on-line world. Master Card is second and the other players face difficult entry obstacles onto a lucrative field. Alternatively-looking systems (Google Pay, Apple Pay, PayPal) are not a direct threat because they partially cooperate with both credit card issuers.
- **Alphabet (Google)**
The mother company of Google, which we all use as a search engine. 80% of the company's revenues come from advertising. There are over three billion devices with the Android operating system worldwide. Such community of users generates further revenues for the company. Their own idea center develops remarkable projects with a potential to further change the world (for example, self-driving cars, smart households).
- There are also well-known brands, like **Apple, Microsoft, Nestlé, LVMH (Moët Hennessy Louis Vuitton)**.

Before investing we recommend to get familiar with risks on page 2 in section What you should know.

"A globally focused fund should be the cornerstone of the investor's portfolio, who does not have time to actively monitor the financial markets. I choose shares of companies that I and our team of analysts believe in into our fund – for example, world leaders in their field, like Google (Alphabet), Visa or Disney."

Pavel Kopeček, portfolio manager of the fund,
has more than 15 years of experience in investment and financial markets.

"We do not live in a vacuum. Social and technological changes influence our lifestyle. Open-minded companies will be successful in the decades to come."

Jaroslav Vybíral, investment analyst of the fund,
has more than 15 years of experience in investment and financial markets.

Who is the fund for?

The fund is for clients with an investment profile: **Very dynamic**

You do not know what it means?

This type of client prefers the yield potential even at the cost of major fluctuations of the investment value. The client is aware that the investment value may be below the initial value for a few years and expects a considerably higher yield than the yields on current bank deposits.

Product score: Allows the comparison of the savings and investment products from the ČSOB/KBC Group in terms of risk. It takes into account amongst others the volatility of the investment.

If you are using portfolio investment advisory, ask your investment adviser to evaluate whether this product is suitable for you.

Synthetic risk and return indicator (SRRI) **5** on the scale from 1 to 7

It is based on legislation and allows for the comparison of collective investment funds in the market. It shows the historical variability of the fund value and hence the riskiness of the investment, but it has a limited use to estimate the risk in the future.

How to start?

In order to start investing, it is sufficient to sign a contract with us at the branch. Then you can use our consultancy or the ČSOB Investice portal.

When you can withdraw money?

You can withdraw money from the fund at any given business day at the current market value. You will have the paid up amount on your account within four business days, and you will not pay any fees.
